KleenMaster Dry Foam Carpet Cleaning Machine

KleenMaster DF 09 Foam Generator allows super dry foam to be produced. Carpet can be cleaned and dried in the shortest time.

Attached to the KleenMaster DF19 single disc machine for rotary carpet shampooing. Innovative dry foam system. The Kleen Dry Foam method is an intermediate carpet cleaning system. It utilizes the unique dry foam generator which produces foam with only 2-10% humidity.

Increased productivity
 Compared to the bonnet cleaning method the Kleen Dry Foam method is more than twice as productive (without having to flip the bonnet). The machine is easy and comfortable to operate, even after prolonged use.

Reduced need for spray-extraction
 The dry foam cleaning method maintains the high aesthetic characteristics of carpets and increases their lifetime. The frequency and therefore cost of deep cleaning is reduced by applying this intermediate dry foam method.

Minimum down time
 As a result of the low humidity, revitalized areas can be opened to traffic shortly after intermediate dry foam cleaning.

Features a **central chemical feed** mechanism for perfect Dry Foam Shampooing. Long life Planetary Gear Box for superior reliability and low noise levels.

Robust Heavy Duty Handle with several safety features.
 1. Safety Switches on both sides of handle
 2. On/Off Switches on both sides of handle
 3. Handle Height Control Lever
