# KleenMaster High Pressure Cleaners - Electric Motor

KleenMaster high pressure cleaners are mounted with large pneumatic tires for easy & smooth movement over uneven surfaces.

KleenMaster high pressure cleaners are mounted on to sturdy heavy duty steel chassis that has folding handles and are powder coated for durability

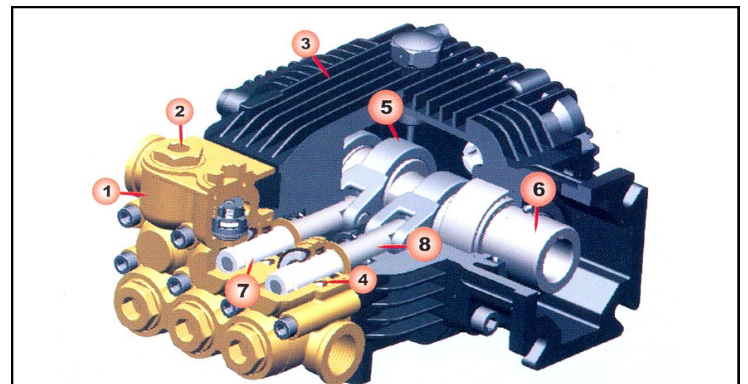

KleenMaster High Pressure cleaners features a heavy duty pump head with a pressure adjustable by-pass valve for long hours of continuous duty.

A heavy duty pressure gun with a stainless steel spray lance with bayonet mountings are supplied as standard.

**KleenMaster High Pressure Cleaners are manufactured to be the most heavy duty and durable on the market. Only low speed (1450 rpm) class F electric motors are used. They are coupled to a super long life pump heads. All components in contact with water is in stainless steel or brass. Hoses and attachments are mounted with quick release couplers for ease of use and durability.**

KleenMaster range of pressure washers features our Heavy-Duty DN range of pump heads. They come with 1) solid brass manifold, 2) Port plug with inner hex 3) anodized crankcase, 4) Super long life packing sleeves. 5) Oversized, one-piece connecting rod 6) Forged, precision grounded and hardened crankshaft. 7) Full ceramic plungers, stainless steel valves 8) Stainless steel plunger guide with heat treatment 9) Stainless steel valves for long life

Model	Motor	Pump Speed	Working Pressure	Max. Pressure	Water Flow	Tires Size	Dimension	Total Weight
<b>C 110E</b>	230V/50 Hz 3 HP	1450 rpm	100 bar	110 bar	11.0 l/min	10" pneumatic	41 X 25 X 21 cm	45 Kg
