KleenMaster VS2 Dry Foam Upholstery Cleaner

KleenMaster VS2 Dry Foam Upholstery Cleaner

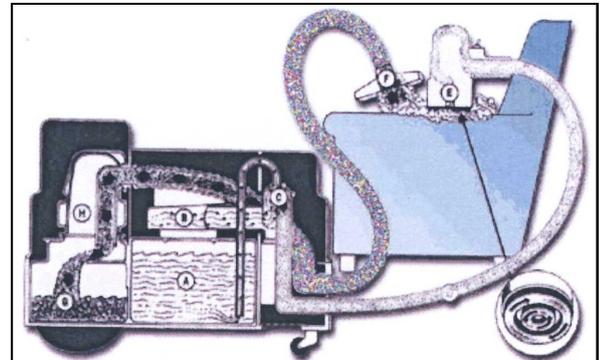

Is one of the most versatile cleaning machine available. Keeping upholstered furnishings at an acceptable appearance is now exceptionally easy with this machine.

KleenMaster VS2 is designed to clean virtually all upholstery fabrics and can also be used to clean staircases, carpet covered areas where maneuvering space is limited, on fabric-covered walls and partitions, automobiles, vans, aircraft and boats.

Deep Cleans fine upholstery fabrics safer and easier!

- Super-fast Drying
- No over-wetting Dangers
- Seating Goes Back in Use almost immediately

Large non-marking rear wheels for quick and easy movement of machine even up the stairs. The Retractable Handle makes this machine easy to handle and very compact.

Here's How KleenMaster VS2 Works

- (A) Solution Tank for the Liquid Detergent
- (B) Exhaust air from electric travels to aerator ('C) where it aerates the detergent solution to produce the dirt dissolving Dry Foam.
- (D) Dirt-dissolving Dry Foam rushes to the brush head brush (E) where the Counter-Rotating brushes gently scrubs and lifts the dirt.
- (F) Vacuum Nozzle suction removes the dirt-laden foam from fabric.
- (G) Foam with dirt held in suspension arrives in waste tank after passing through a filter (H) The cleaning cycle is complete.

KleenMaster VS2 brush head has specially designed counter-rotating brushes to gently scrub and agitate the dirt and grime loose. Dual rotating brushes won't twist or distort fine fabrics.

The brush head has a 3-way thumb-controlled switch to control the flow of the specially heated cleaning foam (which is warmed as it flows around the motor housing and onto the brushes). They do the work while you simply guide the power head over the upholstery surface.

Standard white bristle brushes are for fine fabrics while the black bristle brushes are for use on carpets.

Model	Power	Brush Width	Brush Speed	Vacuum Motor	Solution Tank	Recovery Tank	Total Weight
VS2 Dry Foam Upholstery	Cable 230V/50Hz	250mm 10"	Inner: 750 RPM Outer: 375 RPM	1000 W 230V/50Hz	8 L	4 L	28 kg
